Projects

[Personal Project](#)

Fashion blogging website made using WORDPRESS live running across the world .

Weather App

This is a Weather Application made with Kotlin. I am learning Kotlin so I decided to build a app using Kotlin and I came up with an idea to start with something simple through which I can learn lots of things.

Music Website

A website made using HTML CSS and JAVASCRIPT in which user has to click on the play button and music starts to play . User can also stop the music as per desire.
